In addition to the inherent realism added by VR, *Star Wars Pinball VR* upgrades the *Star Wars Pinball* experience with new features exclusive to this release.

- **The *Star Wars* Fan Room** houses your “actual” pinball table as well as a fully customizable assortment of *Star Wars* helmets, blasters, lightsabers, and other items earned through successful play. Place an action figure on the pinball table and the room comes to life – not only with a new table to play, but also with life-sized characters and vehicles joining you on either side.
- **Total Immersion Mode** allows you to experience everything at table level. It's like being inside the pinball tables yourself.
- **Fully 360-Degree Minigames** surround you with iconic *Star Wars* set pieces. See forest moon of Endor all around you during a speeder bike chase, examine the carbon freezing chamber in a lightsaber duel with Darth Vader, and more.

And of course, other features from past *Star Wars Pinball* releases return:

- **Haptic Feedback:** Controllers jolt and rumble just like an actual pinball table.
- **Galactic Struggle:** Every player chooses to follow the light or dark side in a perpetual online digital tug-of-war between the forces of good and evil. What is your destiny?
- **Career Mode:** Designed with short gameplay sessions in mind, this mode challenges you to complete very specific pinball-based missions across all tables. Choose the path of the Jedi or the Sith as you progress through 50 career ranks.
- **Force Powers and Talents:** Collect Holocron Shards during missions to unlock Force Powers and Talents that yield special in-game bonuses when activated, such as multipliers, slowing down time and more.
- **Cantina Jukebox:** Collect the greatest tunes in the galaxy as you play each table. Once you've heard a song, you can listen to it any time you like.
- **Galactic Tournaments, League Play** and, of course, old-fashioned high scores achieved through **Single Player** mode are also included.
