## ***Star Wars™ Pinball VR* Brings ‘*The Mandalorian*’-inspired Table & More to Virtual Reality**

**Zen Studios’ new collection of eight tables featuring original and classic remastered content with exclusive enhancements coming April 29 to Oculus, Steam VR and PlayStation®VR**

**SAN FRANCISCO, Calif. – Feb. 25, 2021** – As seen today on [The Pinball Show](#), Zen Studios has announced that *Star Wars™ Pinball* tables are finally coming to virtual reality for the first time ever. ***Star Wars™ Pinball VR*** will release on the original Oculus Quest, Oculus Quest 2, Steam VR, and PlayStation® VR on April 29, 2021. The game’s reveal trailer is a heartfelt homage to the classic theatrical preview for the 1997 *Star Wars* Special Editions.

*Star Wars Pinball VR* will launch with eight amazing tables. *The Mandalorian* and *Star Wars Classic Collectibles* – two tables never before released – will be joined by six remastered favorites, including *Star Wars: A New Hope*, *Star Wars: The Empire Strikes Back*, *Star Wars: Return of the Jedi*, *Rogue One: A Star Wars Story*, *Star Wars Rebels*, and *Masters of the Force*.

Beyond the incredible realism added by VR, *Star Wars Pinball VR* upgrades the core *Star Wars Pinball* experience with new features exclusive to this release. The “Fan Cave” is the new home for both your pinball table and the customizable array of *Star Wars* lightsabers, blasters, helmets and more you’ll earn while playing. Place an action figure on the pinball table and the room comes to life – not only with a new table to play, but with life-sized characters and vehicles joining you on either side. Total Immersion mode lets you experience everything at table level, standing you side-by-side with your favorite characters. And full 360-degree mini-games surround you with iconic *Star Wars* set pieces like the speeder bike chase on Endor, the Bespin carbon-freezing chamber duel, and more.

In addition, players will have access to classic *Star Wars Pinball* features like Career mode, Force powers, competitive game modes, haptic controller feedback, your own personal cantina jukebox and more.

“Zen Studios has had great success bringing *Pinball FX* digital tables to VR, and we couldn’t be happier to finally have *Star Wars* enter the mix,” says Mel Kirk, Chief Operating Officer at Zen Studios. “It really does feel like you’re playing an actual pinball machine right in front of you! *Star Wars Pinball VR* is built to be expanded upon, too – no announcements just yet, but we’re hoping to keep the blast doors open for new DLC in the future.”

*Star Wars Pinball VR* was revealed on *The Pinball Show* – Zen Studios' [new monthly YouTube program](#) featuring news, interviews and more.
